Joe Hartsoe -

My understanding is that Hebert doesn't have the legal authority (and the filing never makes clear) to Suspend performance under the PPA (he probably doesn't have the political support for this either).

EPSA, however, could support this in its filing as a method to help move the QF issue forward.

FYI. Any thoughts Joe & Co.? Is release from contracts an "increase supply" option? My fear is that QFs get released and then California's "police state" mentality kicks in, enacting Exec Orders, legislation, etc. to ensure that the power from the QF facilities stays in California.

Best,

Subject: Ridgewood's Petition To Be Released From QF Contracts

We are trying to set up energy purchasing arrangements with QFs who get temporarily released from their contracts. Take a look at the e-mail below and see if we can suport them.

Thanks

Gentlemen,

In light of the possible backouts in California today and later this week, if it is possible, Ridgewood Power requests that your organization intervene in support of the attached emergency filing at the FERC. Please send this e-mail to your firm's general counsel and ask him to contact either our Washington counsel, Carol Smoots (202-496-7196), our general counsel, Dan Gulino (800-331-8006, x-118) or me at (800-331-8006, x-163). Any help would be most appreciated.

Sincerely yours,

Bill Short
