**Subject:** "Matthew" at Lake Charles

The "Matthew" discharged 2,702,390 MMBtu at Lake Charles. After taking out the 1.75% terminal fuel expense, we will have 2,655,098 available for our sale to ENA. We have sold ENA 2,666,000 for March on this deal, so we need to buy 10,902 MMBtu to cover the shortage.
