Subject: QF Meeting Today--Highlights

While we don't need to do any lobbying on this bill, if anyone hears any information about chances for success it would be good to get the info to me. Enron Wind has an interest in seeing this bill move forward.

Thanks,

Jim

Subject: QF Meeting Today--Highlights

Despite the fact the bill, by itself, does not guarantee payment for overdue receivables, the QFs on today's call decided to go forward and push for SBX 47 irrespective of the progress on SBX 33. A press conference is planned for Friday by IEP. Bowen, who heads up the first committee that this bill will go through will have hearings on this bill on Tuesday at the earliest.

Jan S-J asked every QF to fax to IEP a description of all QF generation and the zip code of each project so that they can begin lobbying specific legislators. A significant PR push is planned.

SBX 47 is opposed by SCE. PG&E's position appears more ambivalent. One angle would be to try to get PG&E to support Enron's swap/SC language and make inclusion of such language a condition of PG&E's support.
