Subject: Re: Environmental Strategy Meeting

I thought it might be of interest to you given your involvement w/ CFEE. Also, there are a lot of env. opportunities in CA to which you could speak. The meeting is intended to focus on getting some deals going. So, if you'd like to participate, we'd like to have you. I can hook you in by conference call also, if you prefer.

Subject: Environmental Strategy Meeting

The Environmental Strategies group invites you to attend a company-wide, Enron Environmental Strategy Meeting on September 15th from 9-2 (including lunch & snacks). The purpose of the meeting is to start an internal dialogue about the growing environmental market and ways in which Enron can capture associated business opportunities. As many of you are aware, the environmental market is quickly changing and expanding with a growing correlation between energy efficiency, renewable energy, air emissions, and new technology developments. Given our vast industry expertise and comprehensive service, Enron has a significant advantage to meet these market demands, which present both wholesale and retail opportunities.

For those of you that can attend, please RSVP by sending in a short description of what you do, and any suggestions to the below tentative agenda by Friday, September 8th. I'll circulate these descriptions to those who have RSVPd along with a finalized agenda. The location is TBD.

If you have any questions, please feel free to contact me at 3-9916.
Stacey Bolton

TENTATIVE AGENDA
Introductions
 Brief introductions including what you do for Enron and its related environmental issues
 Update on what each of the Enron groups are doing related to environmental market opportunities
State of the Environmental Market, updates on:
 Size of the market
 Emission and Green Premiums
 Customer demand for environmental products
 Mandates and Incentive Funds
 Credit trading programs
 Utility and competitors renewable product offerings
 Governments' efforts to "go green"
