Subject: EES Projects

Wes and Wade,

Rick Buy and the RAC/EES team have compiled a list of EES projects, the so-called "Points of Light" list. Its objectives are the following:

[REDACTED] B6

- assign responsibilities to appropriate individuals
- monitor completion of projects against a set timetable

I suggest that we revise this list to reflect reality better. Also, you could use this list as a management tool to ensure that in six months EES issues are properly addressed.

I could meet with you and walk you through the "Points of Light" list.

Vlady.
