Subject: CNG Appalachian production

Terry, please call Jack Meyers (304-623-8811) at CNG Transmission and have [REDACTED] B6
to do is send CNG a letter requesting;

"Please move all meters flowing into contract 8G0A61 to contract 8G0011".

If CNG needs meter information, maybe you could send them the statement they send to Gloria, I believe CES/CEM has 11 contracts.

Let me know if you have any questions.

thanks

Subject: CNG Appalachian production

The CES/CEM CNG Appalachian production is still flowing into the CES/CEM gathering and transmission contracts. Unless someone objects I would like to get this moved over to Enron's pool. We don't need to have the gathering and transmission contracts moved over.

Comments/questions?
