We didn't buy anything from Pan Energy at Centana Mobil until April the 3rd. So, we shouldn't pay for this gas.

PanEnergy purchase: Deal #231758.

Gas in the amount of 271 mmbtus for April 1st was purchased from PanEnergy on deal # 231758 .
However, scheduling has indicated that they have no sale for that gas on day one and as a result, it is not pathed in the system.

Could you please review this item and see if it should or shouldn't be a sale so that Scheduling can either path April 1st or I can dispute the volume being billed to us by Pan Energy.

This is part of Pan Energy's exchange deal.

Katherine

As I told Thu before (see below), I did not see any volumes for that deal in 4/00. I think this volume is some residue that flow from the last day in March and probably should be allocated to that month. I dont show a deal to purchase or sell that gas in April. If you have any more questions please let me know, thanks.

Carlos

Katherine,

This is a brokered deal (Buy Deal 231758 and Sell Deal 93472). This first day was not pathed, that's why you are missing volume of 271. Per Carlos (see below) the deal was not for day one.

Carlos,

I don't think I can allocate April's volume to March production. Could you please extend the deal to April 1 so that I can allocate it. Thanks

Thu
