Subject: Stockholm statement

Steve - FYI, as discussed lst week, here is the statement we are issuing on the so-called acceleration directives being considered in Stockholm this week. I suggested using Ken/Jeff/john Sherriff as the quoted, laudatory official in the company, but the view seems to be that if we quote them, they have to be up to speed to respond to other press inquiries, i.e., subsequent inquiries cannot be deflected to more junior people like Peter or me. Any way, both an explanation of why we did not use Ken or Jeff, and fyi, what we actually said is contained in the attached. let me know if you have questions or need more. mcs

Subject: Stockholm statement

Laura,
Please find attached the final version of the statement re the Stockholm meeting approved by regulatory and legal.

As we discussed and per your memo below, please send this tonight to all the Brussels correspondents Peter spoke to (or established a relationship with) in the last few months re European energy liberalisation including Patrick Cox of Bloomberg (today), Philip Shiskin from the WSJ last Monday and Daniel Dombey from the FT last week. Peter covered most of these points already today in his Bloomberg interview (France and Germany in particular were not really touched upon).

We will also use it on a reactive basis for when correspondents contact you there in Brussels, us here in London, C&W in Frankfurt and GK in Oslo. Please let us know any enquiries you might receive before sending out the statement.

Many thanks

Eva

ps For those who want to see an overview of the current status of our Brussels/Pan-European media relations programme, please see the attached memo (stockholm statem-distribut list.doc).
