OIL:
Crude could rise $4 by yearend even with OPEC hike: EIA
Crude oil prices could rise by $4/bbl by the end of the year even if OPEC increases production by 1-mil b/d during the second half of the year, the US energy department's Energy Information Administration warned. (http://www.platts.com/archives.shtml#59817)

NATURAL GAS:
US Senate approves Murkowski Alaska pipeline amendment
The US Senate Wednesday approved an amendment to guarantee Alaska's control over
any North Slope gas distributed within Alaska via a proposed pipeline to the lower 48 states. (http://www.platts.com/archives.shtml#59783)

PETROCHEMICALS:
Dec may have been bottom of basic chemical cycle: ACC
The bottom of the basic chemical cycle may have been reached in December, according to the American Chemistry Council's first quarter 2002 Situation and Outlook, released Wednesday. (http://www.platts.com/archives.shtml#59791)

ELECTRIC POWER:
US House leaders seek Wall Street firms' Enron records
Leaders of the US House Energy and Commerce Committee Wednesday called on more than a dozen Wall Street investment and credit-rating firms to turn over records
linked to Enron and its related partnerships, as well as services provided for the bankrupt energy giant. (http://www.platts.com/archives.shtml#59780)

NUCLEAR:
NRC stresses caution in requiring security changes
The US Nuclear Regulatory Commission stressed caution in imposing security upgrades for nuclear facilities. At the NRC's annual Regulatory Information Conference, Commissioner Nils Diaz said yesterday that cutting back resources in
the security area is not appropriate post Sep 11, but said the NRC should not take action merely for "appearance's sake."
