Subject: Canadian Precedent Form of ISDA

Tana, Enron Canada is currently negotiating a transaction with 6 major municipalities in Ontario (the "G6") to provide various services to a company those 6 entities are setting up, which services will include physical and financial trading (both gas and electricity). John Suttle is working with Jan Wilson of our Toronto office to set the credit terms applicable to this entity on both the physical and financial trading side, but they have not yet made a final determination. In the interim, the G6 has requested that we send them a copy of our precedent form of master financial trading agreement (both the ISDA and our short form financial GTC). I assume you get requests like this all the time and was hoping that you could e-mail to me (i) the ISDA, credit support annex, Paragraph 13, etc. that we would typically put in place between ECC and a Canadian counterparty to financially trade gas and electricity in Canada (ie. incorporating the Canadian provisions), leaving the credit terms blank for the time being and (ii) the financial GTC we use for Canadian counterparties.

Call me if you have any questions or if there are any problems with preparing and forwarding these documents to the counterparty.

Thanks

Greg
