Subject: Capacity Options on TW

So far I have not received comments from anyone on the attached.
If you think it would be productive to get everyone together (possibly as early as Friday?) for about an hour to discuss capacity options, I will set up a meeting. Please let me know one way or the other.
Thank you.

Subject: Capacity Options on TW

Attached is a preliminary draft of a filing for capacity options on [REDACTED] B6
language and a proposed form agreement.

Obviously there are still quite a few details to be worked out. I am distributing a draft at this early stage in hopes of initiating a dialogue about the larger issues first. A few that come to mind are whether we want to commit to selling options online, how best to explain or justify the option fee, and what specifically in the industry has changed such that FERC should depart from existing policy and allow TW to essentially reserve future

capacity for shippers. Please let me know your thoughts on these and any other issues.

I would prefer to wait to discuss comments on wording, other conforming changes to the tariff, and other comments concerning form until after we have resolved the substantive issues. Thanks.
